SUMMARY

Aspiring Full-Stack Developer with a foundation in software engineering and advanced studies in full-stack development. I eager to contribute to innovative projects and enhance my abilities in front end and back-end development. My goal is to become a proficient full-stack developer capable of delivering high-quality, efficient solutions.

PROFESSIONAL EXPERIENCE

Software Engineer Intern — SimpliFy Labs (LK)

Feb 2025 - Aug 2025

- Developed a **cross-platform Fitness App** using **React** and **React Native** delivering real-time workout tracking and progress monitoring.
- Integrated **RESTful APIs** to fetch exercise plans, user data, and activity history.
- Implemented **Redux state management** for consistent performance across mobile and web platforms.
- Designed responsive and **intuitive UI** components to ensure smooth navigation and user engagement.
- Optimized app performance by reducing API calls and leveraging memoization techniques.
- Collaborated with designers and backend developers in an Agile environment, ensuring timely feature delivery.

PROJECTS

Hospital Management System

- Contributed to **front-end development** using **Angular**, delivering a responsive and user-friendly interface seamlessly integrated with a secure, high-performance **Spring Boot backend**.
- Collaborated closely with the development team to ensure optimal user experience and consistent design.
- Prepared comprehensive project documentation detailing system features, user workflows, and technical architecture to support future enhancements and maintenance.

Library Management System

- Developed a **full-stack application** integrating an **Angular** frontend with a **Spring Boot** backend and a **MySQL** database.
- Implemented user authentication, search history tracking, and efficient API handling for smooth data flow.
- Designed a **component-based architecture** to enhance scalability, maintainability, and code reusability.

Weather App

- Built a dynamic weather application using **HTML, CSS, and JavaScript** with **real-time API integration**, delivering accurate weather updates. Designed a clean, responsive UI to ensure an engaging user experience.

The Burger Joint POS System

- Developed a comprehensive **POS system** using HTML, CSS, and JavaScript, enabling efficient management of customer orders, billing, and order history. Designed an intuitive, responsive interface to streamline workflows, reduce processing time, and enhance the overall customer service experience.

SKILLS

Programming Languages

- Java, JavaScript, TypeScript, SQL

Frontend Technologies

- React, React Native, Angular, HTML, CSS, JavaFX

State Management

- Redux, Context API

Backend Technologies

- Spring Boot

Databases

- MySQL

Tools & Platforms

- Git, GitHub, Postman, VS Code, IntelliJ IDEA

Other Skills

- API Integration (OpenWeather API, custom REST APIs)
- Responsive Web Design
- Agile/Scrum collaboration tools (ClickUp, Jira)

EDUCATION

Bachelor Of Information Technology SLIIT Uni - 2nd year	2024 - Present
Institute of Computer Engineering Technology (iCET), Panadura Diploma: Computer Engineering Technology	2024
Advanced Level Passed in Maths Stream	2023
